SUSTAINABLE SOLUTIONS FOR INDUSTRIES

SA Enviro Solutions is a Pune-based environmental engineering and consultancy company providing customised solutions for water treatment, wastewater management, pollution control and environmental compliance.

From plant design and installation to Annual Maintenance Contracts and complete plant operations, we support clients throughout the lifecycle of their environmental systems.

OUR STRENGTHS

Turnkey project execution

Customised treatment systems

AMC and O&M services

Environmental-compliance support

Experienced technical professionals

OUR VISION

SA Enviro Solutions aims to become a trusted leader in environmental solutions by delivering innovative, efficient, and sustainable systems that empower industries and institutions to achieve regulatory compliance, optimize resource utilization, and contribute to a cleaner, healthier, and more sustainable future.

OUR MISSION

Our mission is to deliver reliable and sustainable environmental solutions that help organisations achieve compliance, maximize resource efficiency, and ensure long-term operational success.

OUR VALUES

Quality

Sustainability

Customer Support

FOUNDER AND LEADERSHIP

Built on Technical Expertise and Environmental Responsibility.

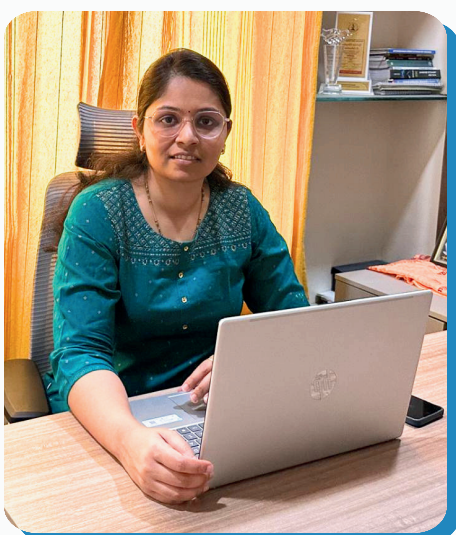

SA Enviro Solutions is led by environmental professionals with experience in pollution control, water and wastewater treatment, project execution, environmental analysis and regulatory compliance.

Mr. Santosh D. Urdukhe Founder, Director and CEO

A postgraduate in Environmental Science, Mr. Santosh D. Urdukhe brings experience in water and wastewater treatment engineering, pollution-control systems, plant design, fabrication, installation, commissioning, and maintenance.

He leads the company's project management, technical execution, procurement and quality-control functions.

Mrs. Amruta S. Urdukhe Co-Founder — Finance and Sale

A postgraduate in Environmental Science, Mrs. Amruta S. Urdukhe has experience in environmental analysis, laboratory coordination, environmental audits and Environmental Impact Assessment-related work.

She leads the company's project management, technical execution, procurement and quality-control functions.

OUR CAPABILITIES

INTEGRATED ENVIRONMENTAL SOLUTIONS

SA Enviro Solutions delivers end-to-end environmental engineering solutions, from design and installation to operation and maintenance.

Water Treatment

RO, UF, DM, Water Softening and Packaged Drinking Water Systems.

Wastewater Treatment

ETP, STP and customised industrial wastewater treatment plants.

Zero Liquid Discharge

Water recovery and wastewater reuse systems.

Pollution Control

Wet Scrubbers, Treatment Chemicals and Pollution Control Equipment.

Environmental Consultancy

MPCB, CPCB, Environmental Clearance, Audits and Compliance Documentation.

Plant Maintenance

Annual Maintenance, Plant Operation, Troubleshooting & Performance Monitoring.

WATER TREATMENT SOLUTIONS

Reliable Water for Industrial Applications

SA Enviro Solutions designs water-treatment plants based on source-water quality, required output quality and application needs.

OUR SOLUTIONS

Water Treatment
Plants

Reverse Osmosis
Plants

Ultra-Filtration
Systems

Demineralisation
Plants

Water
Softeners

Mixed-Bed
Treatment Plants

Packaged Drinking
Water Plants

Domestic and
Commercial RO Systems

WASTEWATER TREATMENT AND ZLD

Treat. Recover. Reuse.

SA Enviro Solutions provides customised systems for treating industrial effluent and domestic sewage.

OUR SOLUTIONS

Effluent
Treatment Plants

Sewage
Treatment Plants

Wastewater
Treatment Plants

Biological
Treatment Systems

Clarification
Systems

Tube Settler
Systems

Zero Liquid
Discharge Plants

Treated-Water
Reuse Systems

PROCESS EQUIPMENT

Supporting Equipment for Efficient Treatment

SA Enviro Solutions supplies and installs treatment equipment required for efficient plant performance.

EQUIPMENT PORTFOLIO

Pressure Sand Filters

Activated Carbon Filters

Chemical Dosing Systems

Clarifiers and Tube Settlers

Wet Scrubber Systems

FRP Cooling Towers

Boiler and Cooling-Tower
Treatment Systems

Rainwater-Harvesting
Systems

Laboratory Equipment and
Chemicals

PLC, HMI and SCADA
Automation Systems

ENVIRONMENTAL CONSULTANCY

Simplifying Environmental Compliance

SA Enviro Solutions assists industries with environmental documentation, assessment and regulatory coordination.

CONSULTANCY SERVICES

MPCB Consent Management

CPCB and MPCB Support

Consent to Establish

Consent to Operate

Environmental Clearance

Environmental Audits

Environmental Monitoring

CGWA NOC Assistance

Statutory Documentation

Industrial Safety Consultancy

Energy and Electrical-
Safety Audits

Environmental Impact Assessment

OPERATION AND MAINTENANCE

Protecting Plant Performance

Proper operation and preventive maintenance are essential for consistent treatment quality and equipment life.

CONSULTANCY SERVICES

Trained plant-operator deployment

Routine plant operation

Preventive maintenance

Chemical-dosing supervision

Equipment inspection

Performance monitoring

Breakdown support

Laboratory coordination

Troubleshooting

Maintenance documentation

Process optimisation support

OUR VALUED CLIENTS

Trusted by Leading Industries

We are proud to serve businesses across multiple sectors with dependable water, wastewater & environmental solutions backed by quality and expertise.

SA ENVIRO SOLUTIONS

YOUR TRUSTED PARTNER FOR A CLEANER, SUSTAINABLE FUTURE

Partnering with industries to deliver intelligent, sustainable and future-ready water & environmental engineering solutions.
