

INTRODUCTION:

The M/s SA Enviro Solutions (SAES) provides quality and customised services to address Environmental Aspects, specifically in Water & Wastewater Treatment, Zero Liquid Discharge, Air Pollution Control, Energy, Solid-Waste Management. SAES is managed by Mrs. Amruta Santosh Urdukhe & Mr. Santosh Dattatray Urdukhe, Masters in Environmental Sciences, experienced in designing and developing water treatment machines and plants. The company has a team of qualified technical professionals in areas of Environment Science, Microbiology, Electrical, Mechanical, Instrumentation and Civil Engineering to offer efficient technology for treating water.

Company Profile

Year

2025-26

SA Enviro Solutions

A] OUR PRODUCTS:

1) Effluent Treatment Plants (ETP):

We at SA Enviro Solutions manufacture and supply effluent treatment plants. The effluent treatment plants are designed to treat the effluent coming from different process of the plant.

Chemical Dosing System

Primary Clarifier

Biological (MBBR) Treatment

Pressure Sand Filter & Activated Carbon Filter

Tube settlers

Application:

- ❖ Manufacturing Industries
- ❖ Institutional – Medical Colleges, Hospitals, Laboratories & RND Centers

2) Zero Liquid Discharge (ZLD):

ZLD is a strategic wastewater management system that ensures that there will be no discharge of industrial wastewater into the environment. It is achieved by treating wastewater through recycling and then recovery and reuse for industrial purpose.

Application:

- ❖ Manufacturing Industries
- ❖ Institutional – Medical Colleges, Hospitals, Laboratories & RND Centers

3) Sewage Treatment Plants (STP):

On the Activated Sludge Process basis sewage treatment plants are designed.

Photographs Of Pre-fabricated Skid-mounted STP

Application:

- ❖ Manufacturing Industries
- ❖ Commercial Complex
- ❖ Domestic – Housing Society's
- ❖ Institutional – School & Colleges

4) Water Treatment Plants (WTP):

SA Enviro Solutions supply a wide range of Water Treatment Plants, Packaged Water Treatment Plants. We also offer effective turnkey solutions for these plants to our clients.

Application:

- ❖ Manufacturing Industries
- ❖ Commercial Complex
- ❖ Domestic – Housing Society's
- ❖ Institutional – School & Colleges

5) Ultra-Filtration (UF):

Ultrafiltration is a low-pressure membrane process used to separate bacteria, viruses, and high molecular weight compounds colloidal and particulate matters from a feed stream.

6) Reverse Osmosis (RO):

RO is a water purification process that uses a partially permeable membrane to separate ions, unwanted molecules and larger particles from drinking water.

Application:

- ❖ Manufacturing Industries
- ❖ Commercial Complex
- ❖ Domestic – Housing Society's
- ❖ Institutional – School & Colleges

B] OUR SERVICES:

1) AMC services:

SA Enviro Solutions provide Annual Maintenance Contract (AMC) Services for ETP, WTP, STP, DM (Demineralization) Plants, RO Plants & Softener Plants. We have trained manpower to run the above listed plants.

2) Legal Compliance Consultancy:

MPCB Consent Management.

MPCB & CPCB Techno-Legal Services.

Environment clearance service (EC).

Statuary Environment Audit /Statement preparation and submission.

Industrial Monitoring services.

Central Ground Water Authority NOC – CGWA NOC

EPR-Extended Producers Responsibility for Plastic Management

Application:

- ❖ Manufacturing Industries
- ❖ Commercial Complex
- ❖ Domestic – Housing Society's
- ❖ Institutional – School & Colleges
